

### **Sarah Horrocks**

Sarah is Head of Air Quality & Emissions at AtkinsRéalis, a company she has worked for the past 25 years. Over this time, Sarah has worked on hundreds of air quality impact assessments, monitoring surveys, health risk assessments and environmental audits serving a wide range of markets. She is specialised in the field of air dispersion modelling for both industrial sources and transport studies. She was expert witness at the Public Inquiries for the A21 widening scheme and has advised on air quality at DCO hearings for power station and port developments.

She is passionate about delivering high quality environmental work, and equally so about creating a working environment that is truly inclusive. Sarah chaired the Environmental Industries Commission's air quality taskforce from 2023-25. She is a Fellow of the Institute of Air Quality Management (IAQM) and currently Chairs the IAQM Committee. She led the production of IAQM good practice guidance on air quality monitoring and has previously contributed to guidance on ecological assessment.

---

### **Eric Valentine**

Eric is a Visiting Professor at Newcastle University and a Professorial Fellow at Charles Darwin University, Australia. He was the last Chair of the Foundation for Water Research (FWR). Eric sits on the IES Council, as part of the oversight of the legacy grant of the FWR to the IES. Eric is standing for his second term.

His 45-year career in environmental hydraulics began in New Zealand and he has worked extensively in both New Zealand and Australia with 18 years in Newcastle upon Tyne as an academic.
