

Land Condition Symposium 2023

28th November | Bristol

09.30am	Registration, networking and refreshments
09.50am	Chair's Opening
10.00am	Are we in a sustainable world? <i>Jonathan Atkinson, Technical Director, CL:AIRE</i>
10.30am	The challenges of Gasworks Redevelopment <i>Nicholas Invernizzi, Head of Remediation, St William Home</i>
11.00am	The problem with waste soil: Are soil banks the answer? <i>Graham Winter, Senior Advisor, Environment Agency</i>
11.30am	Exhibition viewing and refreshments
11.45am	Developing GACs for emerging contaminants (PFAS, GenX etc) <i>Paul Nathanail, Director of Land Quality Management Ltd</i>
12.15pm	Sharing is Caring – Can cross industry collaboration be achieved on key environmental topics? <i>Rebecca Hearn, Director, Midland Lands Events: MidLE</i>
12.45pm	Lunch
13.30pm	A Contractor's Perspective on Redeveloping Historical Landfills - with Case Studies <i>Andy O'Dea, Technical Director, Cognition Land and Water</i>
14.00pm	Brownfield sites in N Ireland, case study on Belfast Ship yards development <i>Debra Telford, Senior Scientist, RPS</i>
14.30pm	Land remediation and conservation - the interaction of regulatory regimes <i>Seamus Lefroy-Brooks, Lead Consultant, LBHGEO</i>
15.00pm	Exhibition viewing and refreshments
15.15pm	Panel debate: Soils in construction <i>Sarah Bullock, Atkins (other panellists to be confirmed)</i>
15.45pm	Implementation of CE principles in the remediation of a former paper mill site <i>Liz Gray, Ramboll</i>
16.15pm	Concept for sustainable remediation of an airfield <i>Matthew Ingram, Engineering Manager, Cornelson Ltd</i>
16.45pm	Close of conference

Confirmed speakers

Topic/Title	Speaker
Sustainability	Jonathan Atkinson
The challenges of Gasworks Redevelopment	Nicholas Invernizzi
Panel debate: Soils in construction	Sarah Bullock, Atkins
Circular economy	Graham Winter
<ul style="list-style-type: none"> o Developing GACs for emerging contaminants (PFAS, GenX etc) o Bioavailability and the impact on GACs o Target levels for new pollution events in light of the LCRM July 2023 update 	Paul Nathanail
BNG and remediation	Seamus Lefroy-Brooks

Potential speakers

Topic/Title	Speaker
The case study I suggest covers a former paper mill where CE principles were implemented in the remediation of the site whilst increasing biodiversity and the capacity of the floodplain. My presentation would draw on the challenges and opportunities of using CE principles in the sustainable development of land, using the case study to demonstrate how these can be put into practice.	Liz Gray, Ramboll
Skills issues in the sector	Rebecca Hearn
Case studies - perhaps historic landfill developments?	Andy O'Dea Cognition land and Water
Brownfield sites in N Ireland, case study on Belfast Ship yards development	Joseph McGrath

Potential ECN speakers

Topic/Title	Speaker
Environmental Forensics: Tapping into underutilised data	Rachel Stephenson
The application of PAH diagnostic ratios and fingerprinting techniques to provide supplementary evidence in the investigation of brownfield sites
