

Monday 29th October

9:30 Registration and refreshments

Introduction

09:50 - Chair's Welcome

10:00 - **Dr Ian Mudway**, King's College London - *Reflections on diesel exposures in professional drivers – a poorly quantified risk*

10:30 - **Dr Jo Barnes**, University of West of England - *Qualitative assessment of links between exposure to noise and air pollution and socioeconomic status*

11:00 - **Professor Francis Pope**, University of Birmingham - *PM exposure and cognition*

Refreshment break

12:00 - **SPEAKER TO BE CONFIRMED**, Air Quality and Industrial Emissions, Defra, **TITLE TO BE CONFIRMED**

12:30 - **Esfandiar Burman**, University College London - *Indoor Air Quality in Low Carbon Buildings: A cross-sectoral analysis*

Lunch

Natural Environment

13:55 - Chair's introduction

14:00 - **Professor Nick Hewitt**, Lancaster University - *Using green infrastructure to improve urban air quality (GI4AQ) (with Kirsti Ashworth, Lancaster University and Prof Rob MacKenzie, University of Birmingham)*

14:30 - **Mark Wilmot**, AERIUS, The Netherlands - *AERIUS: The calculation instrument of the Dutch integrated approach to Nitrogen and the National Air Quality Cooperation Programme*

15:00 - **Susan Zappala**, Natural England - *Nitrogen deposition: exploring strategic approaches from policy to modelling*

Refreshment break

Best Practice

16:00 - **Professor William Bloss**, University of Birmingham

16:15 - **Jenny Stocker**, CERC - *Best practice air quality modelling using ADMS*

Woodburning

16:45 - **Dr Gary Fuller**, King's College London - *Woodburning in the UK*

17:15 - **Jack Pease**, Environmental Management Publishing - *Firewood standards: a contradiction in terms?*

17:30 - End

Tuesday 30th October

09:00 Refreshments and registration

09:20 - Chair's Introduction

Road transport

09:30 - **Dr Mark Peckham**, Cambustion, - *Transient engine emissions and their impact on (very) local air quality*

10:00 - **Rebecca Rose**, Ricardo - *Real world measurements of ammonia emissions from vehicles*

10:30 - **Professor Jillian Anable**, University of Leeds - *Public concern about air quality: the key to pro-social mobility behaviour?*

Refreshment break

11:30 - **Nick Molden**, Emissions Analytics - *The first Real Driving Emissions results, consequences for Euro 6 diesels and how to make a clear air zone work*

Policy

12:00 - **Stephen Inch**, Greater London Authority - *London's approach to cleaning the air: Integrated Air Quality policies*

12:30 - **Nigel Bellamy**, Air Quality Consultants - *Clear Air Zones – What are Local Authorities Proposing?*

Lunch

13:55 - Chair's introduction

Indoor Air Quality

14:00 - **Douglas Booker**, NAQTS - *Vehicle Interior Air Quality*

14:30 - **Chris Birch**, Hilson Moran - *Well Building Standard & Workplace Air quality*

15:00 - **Peter Dymont**, Camfil Ltd - *How Molecular filters work - NO₂ removal for City air*

15:30 Refreshments and conference end

This programme is still subject to change
