10/11/97

Dear Mr. Rees,

Kent Prospects: Sustainable Business Partnership

Thank you for your recent invitation to participate in and contribute to the above initiative. I have been consulting with my various colleagues in different committees, hence the delay in making a response.

We have not identified any projects or forward programmes specifically located in or related to Kent and we do not have any regional group activities scheduled in that area at present.

We have, however, noted the proposal and should any plans come forward which are relevant we will certainly get in touch.

Yours sincerely,

Dr. R. A. Fuller
Hon. Secretary
